

Free Commission Directory

The Roadmap to Success

Free Locator Users
Sign up 1,000 locators

Free Management Users
Post 1,000 commissions

Free Technology Users
Sync across all locator platforms

Open the door for locators to
expand into new markets

THE PROBLEM

- Unclear & inconsistent commission reporting.
- Delayed payments (average 4+ months).
- No easy system to verify or enforce commissions.
- Perpetual verification with no accountability.
- No central industry-wide database with consistent, owner-written commission instructions.

THE NO COST SOLUTION

- **Free** for locators to view, **free** for managers to post, **free** for databases to download.
- **Shared Commission Data:** databases can download owner-written commission data so everyone has the same info.

FEBRUARY 1

We need 1,000 locators signed up for a **free** account

- We can't expect management companies to create databases or manage standards.
 - Real change isn't going to happen unless apartment communities see locator participation first.
 - If every locator who joins invites just one other locator, we cut the work in half.
- Fix an industry-wide **infrastructure problem** and future proof apartment locating.
 - Show apartment communities we're aligned and ready for progress.
